

Thank Volunteers for Their Time

Adapted from Genia Connell's "[Quick and Easy Thank You Gifts for Classroom Volunteers.](#)"

Use black and tan (or any color you like) patio paint on a plain terra cotta pot to dress it up.

After painting the pot with a sponge applicator, let it dry for about 30 minutes and apply letter stickers to spell out "thyme."

Add a four-inch pot of thyme and a note thanking them for all the time they spent helping out in the classroom. The total cost of this project, including the plant, was \$7.50.
